Lecture

Professor John Zeleznikow

School of Information Systems
Victoria University, Melbourne, Victoria, Australia

Online Dispute Resolution

John Zeleznikow is one of the leading experts worldwide on artificial intelligence and law. His book (written together with Andrew Stranieri) entitled „Knowledge Discovery from Legal Databases” Springer, 2005 is a standard book on this subject. He has developed numerous applications in this field and considers “expert systems” as a cheaper and thus more affordable form of dispute settlement.

**Seminar room 44, Wiener Juridicum
Schottenbastei 10-16, 1010 Wien
Tuesday, 19 February 2008, 18.30 hours**
